

**“Real”
Conservatives
Needed**

Dear Editor,

I’ve heard that fascism, socialism, communism, and liberalism are diseases that crave and depend on group care or big brother control over all our activities and lives. In trying to analyze and understand that thinking, I’ve come to the same conclusion. Those who would trade away individual freedom, the responsibility for our dreams, needs and successes, have got to be sick. I will offer a helping hand, not cradle to grave dependence and control; that’s slavery.

These forms of government are rather like schizophrenia except those folks don’t realize they need medication and psychotherapy to

get mentally right. Public education through grade school and into the universities reinforces the disease. Students are brainwashed with ignorant and flawed preconceptions. If a highly educated person does not have a good analytical mind, common sense, and good judgment, he is nothing but an educated fool. Education does not necessarily equal intelligence. We witness this daily.

Continued movements for growing government interference, and spending into oblivion, spawned the Tea Party. The federal Obama “Republicrats” are on a mission to destroy freedom, sovereignty, and the Constitution. They are intent on trading the “American Dream” for this global nightmare; a misguided goal of the “disease.”

The Obama administration and his cronies are operating on stupidity and insanity. They are promoting the idea that food stamps and unemployment stimulate the

economy. If that’s the case why aren’t we all on those programs?

This next election is so important. America cannot survive another Obama term as President. We must also elect more REAL conservatives and throw out the “Republicrats.”

**We are
important,
along with our
rights**

Dear Editor,

Each day we are being told that we really don’t matter, that we are not important.

Nationally we are

pawns to be ‘used’ by the Left and the Right which are drinking from the same cup. If Washington D.C. wanted to fix our problems within our Country couldn’t they? Their plan and goals are not ours.

We write our Congresswoman with questions but unless it is of praise we won’t get a return or if we do it has nothing to do with the subject matter. Who’s important? Not us so it must be an un-American agenda.

I’ve asked for a schedule of her town hall meetings, twice, and I’m told by her staff that it’s too dangerous, ala Gifford in Arizona. What I received was a very hollow answer to be sure; but, very revealing -- and a cowardly disposition. Our congresswoman has voted against us and against our freedom. With a few terms under her belt she is now a big part of our problems. What’s that saying? Something about the kitchen being too hot? Oh yeah, if you can’t handle the heat you

shouldn’t be in Politics/

At the local level the people we’ve elected are not marching to their duties or to our citizens concerns, nor upholding Law. Again, we are just slaves to accomplish their ends.

We have a Sheriff who doesn’t have a clue to whom he owes his allegiance or even knows the Constitution. Let me re-state that. His allegiance is to the Feds. In his eyes they are more important than his own citizenry. Is he a member of LEEDA--FBI? LEEDA--FBI (Law Enforcement Executive Development Association) is a 501(c) (3) Corporation and this goes globally, a global police force! Does NWO ring a bell?

In this county there is a group of Patriots who are trying to pass a local law (The Food Freedom Ordinance) banning the State and Federal Government “dictating” to us on how we conduct agricultural sales within this County. I find out that not only are our

Commissioners more than likely to diss their “constituents” on this issue but also Shelly Short, our legislator.

Whom do they serve? Could it be the Republican Central Committee they take orders from? The RCC is against our attempt to enact the Food Freedom Ordinance, (a basic American right); an act of questionable behavior. This organization is not in any way a lawful body nor does it have lawful power. For them to dictate is pure arrogance! As a Conservative (not to be confused with Republican) I normally vote “R” but we have to realize that both parties drink from the same cup. When they back someone it is only to back someone who will follow the Party’s Agendas regardless of it’s merit, plain and simple.
